SUMMARY

Motivated and detail-oriented Java Backend Developer with hands-on experience in building RESTful web applications using Spring Boot, Java, and MySQL. Completed a Software Testing Internship at Akhira Services Pvt Ltd, where I gained practical experience in Manual Testing, Test Case Design, and API Testing using Swagger. Developed backend projects involving API development, database integration, and application deployment. Strong understanding of software development principles, problem-solving, and version control using Git and GitHub. Eager to contribute to backend development and software engineering teams while continuously enhancing technical skills.

WORK EXPERIENCE

Software Testing Intern | Akhira Services Pvt Ltd

Mar 2026 – May 2026

- Performed Manual Testing on web applications, identified software defects, and logged bugs with proper documentation and tracking.
- Designed, created, and executed Test Cases based on functional requirements and user stories to ensure application quality and functionality.
- Conducted API Testing using Swagger to validate requests, responses, and status codes, while participating in test planning, execution, and quality assurance activities alongside the development team.

Project: AI Resume Analyzer | Java, Spring Boot, MySQL, OpenAI API, Maven, Git

- Developed a web application that analyzes resumes and extracts candidate information from uploaded PDF documents.
- Implemented AI-powered resume evaluation and job description matching using OpenAI API integration.
- Built RESTful APIs using Spring Boot for resume upload, skill extraction, and candidate scoring functionalities.
- Integrated MySQL database for storing resume data, candidate details, and analysis results.
- Designed a responsive user interface and managed version control using Git and GitHub.

EDUCATION

SBM. Mtr. Hr. Sec. School

10th grade (82%) 2018

12th grade (65%) 2020

Madurai Kamarajar University College

BCA (73%) 2020–2023

MCA (79%) 2023–2025

KEY SKILLS

- Java
- Spring Boot (Basic)
- Data Structures & Algorithms
- MySQL
- REST API Development
- Object-Oriented Programming (OOP)
- Manual & API Testing
- SDLC, Agile Methodology
- Database Management Systems (DBMS)
